PROFESSIONAL SUMMARY

Results-driven Python and Django Developer with a B.E. in Artificial Intelligence and Machine Learning from Savitribai Phule Pune University. Experienced in building and deploying full-stack web applications, RESTful APIs, SQL databases, and machine learning pipelines. Currently working as Python Developer at Monytics. Seeking Python Developer, Django Developer, Backend Developer, or Data Analyst roles — full-time or remote.

WORK EXPERIENCE

Python Developer

Monytics | Pune, Maharashtra 01/2026 – Present

- Develop and maintain Python-based backend systems, REST APIs, and automated data pipelines.
- Build and ship scalable Django web application features deployed to live production environments.
- Write clean, well-tested code and collaborate cross-functionally with product and frontend teams.

Machine Learning Intern

YHills Edutech Pvt. Ltd. | Remote 02/2024 – 03/2024

- Built a Music Recommendation System using Python, collaborative filtering, and feature extraction.
- Improved recommendation model accuracy by 20%+ through data preprocessing and hyperparameter tuning.
- Documented model architecture, ran evaluations, and presented technical findings to senior mentors.

PROJECTS

College Admission Inquiry Chatbot | Python, NLP, Scikit-learn, Machine Learning

- Built an NLP-powered chatbot for final year project using intent classification and named entity recognition.
- Automated college admission query handling, reducing manual response time and improving student experience.

Doctor Appointment Booking System | Django, SQLite, Bootstrap, HTML, CSS

- Developed a full-stack web application with user authentication, appointment scheduling, and admin dashboard.

Patient Management System | Django, PostgreSQL, REST API

- Designed CRUD patient records system with role-based access control, advanced search, and audit logging.

BigMart Sales Analysis | Python, Pandas, Matplotlib, Seaborn, Power BI

- Conducted EDA on 8,500+ retail sales records; surfaced key revenue drivers and built interactive KPI dashboards.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3
Frameworks & Libraries: Django, Django REST Framework, Bootstrap, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Databases: PostgreSQL, SQLite, MySQL, database schema design, query optimisation, indexing
Machine Learning & AI: Supervised Learning, Unsupervised Learning, NLP, Collaborative Filtering, Feature Engineering, EDA
DevOps & Tools: Git, GitHub, Vercel, Linux, Postman, REST API Design, CI/CD, VS Code, Jupyter Notebook, Anaconda
Data & Visualisation: Power BI, Matplotlib, Seaborn, Pandas, data cleaning, statistical analysis
Currently Learning: Next.js, Docker, AWS basics, advanced Django REST Framework

EDUCATION

Bachelor of Engineering — Artificial Intelligence and Machine Learning

Savitribai Phule Pune University | Pune, Maharashtra 12/2021 – 06/2025

CERTIFICATIONS

- Johnson & Johnson Robotics and Controls Job Simulation — Forage (2024)
- Machine Learning with Python — YHills Edutech Pvt. Ltd. (2024)
